EDUCATION

2019-2025
MYMENSINGH ENGINEERING
COLLEGE

- Computer Science and Engineering

2016-2018
BAF SHAHEEN COLLEGE

- Science

SKILLS

- Rust Development
- Python Development
- Web Development
- Problem Solving
- C++
- PostgreSQL

LANGUAGES

- English (Fluent)
- Bengali (Fluent)

PROFILE

As a Rust software developer, I specialize in building high-performance, reliable, and memory-safe applications. My expertise lies in leveraging Rust's unique features, such as ownership, borrowing, and concurrency, to create efficient and scalable solutions. With a strong foundation in systems programming and a passion for crafting well-structured code, I am committed to delivering exceptional results.

TECHNICAL SKILLS AND PROJECTS

Technical Skills

- Programming Languages: Rust, and potentially other languages (e.g., C++, Python)
- Rust Ecosystem: Knowledge of Cargo, Crate management etc.
- Systems Programming: Experience with low-level programming, memory management, and concurrency
- Web Development: Good experience with python web development framework Django and flask. Build many apps using flask and Django.
- Database Management: Experience with Rust libraries for interacting with databases. Familiar with postgresSQL with python Django.
- Testing & Debugging: Familiarity with Rust's testing framework and debugging tools
- Version Control: Experience with Git.
- Build Systems: Understanding of CI/CD practices, if applicable.

Projects

- Social Media App
- Ecommerce
- Password Manager
- Video Steaming Platform
- TODO App
